

HAR-LC-SF-W

Infrared Motion Sensor

HAR-LC-SF-W

Infrared Motion Sensor

Electrical Data

Voltage	220-240V AC
Power Frequency	50/60Hz

Detection

Detection Range	360°
Detection Distance	Max 8m (<24°C)
Detection Moving Speed	0.6 – 1.5 m/s

Load Rating

Rated Load	Max 2000W (Incandescent)
1000W (Energy Saving Lamp)	
Power Consumption	Approx. 0.5W

Control Settings

Time Delay	10 seconds ±3s to 15 minutes ±2min
Ambient Light	<3 – 2000 LUX (Adjustable)

Installation

Installation Height	2.2 – 4m
---------------------	----------

Operating Conditions

Operating Temperature	-20°C to +40°C
Working Humidity	<93%RH

Key Features

- 360° PIR motion detection
- Automatic day and night sensor
- Adjustable LUX sensitivity
- Adjustable time delay
- Manual override mode
